

## An Appeal to Join SPEED

Dear Friends,

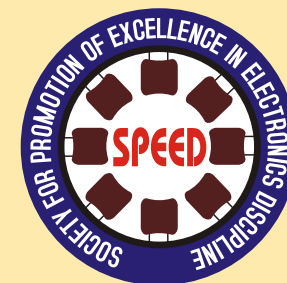

It gives me immense pleasure to reach to you by way of this appeal. We all are proud members of a very important branch of science and technology, the Electronics. Starting from a small offshoot of the Physics, Electronics has grown into a full-fledged discipline engrossing different aspects of life. The popularity of Electronics is due to consistent efforts by all the stakeholders including the teachers, students, technocrats and industry, consumers not to be excluded. We are all proud to see the rapid progress of Electronics and at times get amazed by it. As active members of the Electronics fraternity, we felt need to come together and promote excellence. Thus the idea of establishing the **SPEED** (Society for Promotion of Excellence in Electronics Discipline) was originated. After completing the initial procedures of forming SPEED as a legal entity, we are now approaching you to become member of this society so as to build strength and evolve various innovative programs of mutual benefit.

All these years, we have been interacting formally and informally, trying our level best to promote curricular and co-curricular activities in the subject of electronic science. Many of you have been providing a regenerative feedback which strengthened our efforts. Though, due to different priorities in life some of you could not retain the connectivity, but I am sure all of you must have made best use of the groundwork done during these years. Now we have to make use of this groundwork and facilitate excellence by way of mutual professional interactions, empowerment activities, training programs. The SPEED platform is open for progressive suggestions and is eager to welcome all those who strive for excellence in their lives.

On the occasion of establishment of SPEED, we all are making a humble appeal to all the prospective electronics professional to join the SPEED as a member and explore the further career path together. I am very much confident that you would definitely like to grab this opportunity to get connected to your friends and build new bonds with several generations in the field.

With best wishes for success in all endeavors of life.

**Dr. Arvind Shaligram**  
Chairman, SPEED

## Society for Promotion of Excellence in Electronics Discipline

### Correspondence at:

**Dr. P.B. Buchade,**  
Head ,Department of Electronic Science,  
Abasaheb Garware College, Karve Road,  
Pune 411 004.  
**E-mail : [speedelectronicscience@gmail.com](mailto:speedelectronicscience@gmail.com)**

With growing necessity and the then requirement of expertise in the field of Electronics, Pune University have started Electronic Science as a separate branch at graduate level from the academic year 1985-86. In the last twenty five years the seed sown has grown in to a big tree. In many of the colleges affiliated to University of Pune, the subject Electronic Science have full - fledged B.Sc. in Electronic Science and Electronics in B.Sc. Computer Science at F.Y., S.Y. level. The University Department as well as many Colleges has M.Sc. in Electronic Science and research centers in the subject.

It shall in particular, be capable of organizing competitions, symposia, workshops and conferences, collaborating with other international bodies with which it has common interests, finding the necessary financial resources, encouraging the introduction of advanced techniques, promoting educational and industrial collaboration, undertaking all other activities relevant to the object of the SPEED.

### AIMS AND OBJECTS OF THE SOCIETY

1. To Promote & Foster the Development of Electronic Science.
2. To promote the application of Mathematical modeling and Computer simulations in all branches of knowledge.
3. To encourage wide spread dissemination of technical and other information relating to Electronics through various means; Such as Seminars, Publications, Audio-visual presentations collaborative research etc.
4. To encourage the researchers through Library books, Literature, Lectures, Workshops.
5. To have interactions with expertise of various fields of electronic science.
6. To provide common platform of expression of exponents such as researchers as teachers, students, industrialists, professionals in electronics field.

7. To **organize Conferences, Symphoria, Seminars** and training programs on all aspects of Mathematical modeling and Computer simulation.
8. Collaborate with Institutions Industries and professional bodies engaged in mathematical modeling and computer simulation both at national and international levels.
9. To institute awards, prizes, for outstanding contribution in mathematical modeling and computer simulation.
10. To take necessary steps for the development of teaching and research in mathematical modeling and Computer simulation and its application in branches of knowledge.
11. To make efforts for the **popularity of electronic science** by way of arranging exhibitions, magazines, publishing periodical of electronic science.
12. To cultivate harmonious environment for inter disciplinary exploration of electronic applications.

### Memberships Details

Membership Type	Fees
Patron Members	₹ 10,000/-
Life Members	₹ 2,000/-
Ordinary Members	₹ 500/- (per year)
Student	₹ 200/- (per year)

\* Members will be eligible for privileges at events organized by SPEED.

### Founder Members:

- |                        |                     |
